

## Master Cinema

Developing a personal cinematographic vision, understanding the film-making process and apprehending the stakes of production so as to pave the way for graduates to smoothly join professional circles – such are the main objectives of this programme. This Master course, which is unique in Europe, is aimed at the holders of a Bachelor's degree, or with equivalent experience, wishing to further their knowledge in one of the following fields: directing, writing, editing, sound or producing.

Through courses and workshops provided by renowned lecturers in each field, the students develop a personal project throughout the curriculum. For their master project, they are involved in the production (directing, writing, editing, sound or producing) of a short, medium or full-length film of a previously set genre (fiction, documentary, TV series, art-house, transmedia...). Some films gain international visibility through renowned festivals or by being shown on TV.

This Master programme relies on a partnership between ECAL and HEAD/Geneva University of Art and Design and on collaborations with Lausanne University (UNIL), Zurich University (UZH), Zurich University of the Arts (ZHDK), the Swiss National Film Archive in Lausanne, Swiss National Broadcasting RTS, and la Manufacture (school of performing arts) in Lausanne.
