Hello Ivan,
Here is my current draft of the RE4 assembly document.
I'd appreciate your feedback.

Sorry I didn't check my email today.

But can we meet tomorrow after lunch through zoom? To discuss RE3.1 and I have a few other questions on RE4.1 as well.

Best,
Zainab

Hello,
When you are ready
Call me after 12h. We can use the meeting from friday.
All the answers are on the 3D, I will show you.
We have to make small corrections for to the text and tables.

Start preparing the RE+4/1 document!

I will start the integration meeting in 10:30 today.
If you can call me before that for 10 - 15min.

С най-добри пожелания ИВАН.
Salutations IVAN.
Best regards IVAN.

Subject: Re: Questions about the project

Hello Ivan,
I had a few questions about the sizes of the screws, nuts, and washers that are being used with the RPC brackets.
I've attached my current draft for feedback, and I had some other questions there as well (colored red).

Hi,
I will be in 904 to 15:00h today.

I will look at the document around 12.

And in short:

1. Not in this document. if there is time after you finish whit this tasks we can add it to the list.
2. Yes that will greatly help the people letter since this is the main point of the document.

С най-добри пожелания ИВАН.
Salutations IVAN.
Best regards IVAN.

Subject: Questions about the project

Hello Ivan,

I've been working on the project and I'm unsure about the requirements and what the document should look like. I've made a quick draft and attached it to this email for feedback and some tips on how to move forward.

I also have some questions:

- Do I need to include details on the layers of the RPC and how they are created?
- Do I need to add screenshots of individual brackets and their attachment mechanisms?

Best,
Zainab
