Hi Ian,

Yes, I can totally relate. Please, find attached Elsa's slides. I'm making my own with all the steps of sending an item to the Flex and retrieving it. They should be done by tomorrow! I will speak with Ashok about the "exercise" we thought of regarding his cables.

My best,

May

Hello May

Thanks for all the steps forward this morning, I did not expect to get so far during one morning. Great.

Could you please send the slides you mentioned.

Thanks again

Ian
