Dear Ian,

Many thanks for the email.

We will sit together to finalize the agreement on your future work with us as soon as the run goes forward (latest on Wednesday).

Best regards

Marek

Subject: RE: Target practice

Dear Colleagues

I feel it necessary to show that I am able to machine small pieces to a reasonable precision. So on Friday evening after the meeting I spent a few hours, until 830pm (not what appears on the photos) carrying out the necessary actions that would be necessary to produce a target for NA61.

I do not pretend to have the skills that Martin does as I have by no means his experience. However I can use the classical workshop machines to produce some simple pieces. Further experience will help me improve.

Please find attached document. The piece is available if required.

Yours Sincerely

Ian Crotty

Dear Marek

Thanks to all for this offer. I look forward to going through the document with you all.

Cheers Ian

Subject: draft contract

Dear Ian,

Please, find attached the draft contract.  
Piotr and I are already at CERN; Seweryn will come soon.  
Thus we can discuss it in person.

Best regards  
Marek
